

## Guru Aribam Mansi Devi

Ms G Mansi Devi is currently a final year B. Pharmacy student at Harsha College Of Pharmacy affiliated to Rajiv Gandhi university, where she deeply engaged in the study of pharmaceutical sciences. Her research work is based on the study of Novel Mannich Base Derivatives against the Selected targets For its Antimicrobial Activity under the guidance of Ms Surega A. The major focus on her research is to design a novel compound to combat antimicrobial resistance. She is currently learning molecular docking. She stood first merit in the B. Pharm University Examination. She is having a keen interest in learning *In-silico* drug design and computational drug discovery.
